I AM THINKING, SPEAKING, AND ACTING ACCORDING TO THAT WHICH I DESIRE

Thinking and speaking positively is something that will bring about healing, prosperity, joy and love. How you speak about yourself and others has a direct bearing on what the mind creates

To speak is to perform the sacred act of manifesting thought. It is the essence of our command protocols. If we speak negativity it solidifies it in our bodies. If we speak an acknowledgment of what appears to be negativity and then next banish it, then it is banished. Both speech and thought are capable of manifestation. Let us say we think in the fourth dimension, and when we speak, it steps thoughts down and locks the into the third dimension. Efficiency would look like preparing a thought in the fourth dimension and then speaking it, thus commanding its existence. Speech can then be viewed as a sacred act, and therefore sovereign. (speech is already sacred.) Speaking all the time is a form of speech disorder that may not yet be recognized. People who must speak constantly do so because they are very uncomfortable with themselves. When we are silent, we hear our inner voice. The inner voice serves our highest desires. *Excerpts from Neville Johnston*

I Am who I say I Am.

*I am one with earth
and the earth is one
with me.*

*We belong here. Life
belongs here.
Belonging is the basic
truth of our existence*

*I am going to plant a heart in
the earth
water it with love from a vein
I am going to praise it with the
push of muscle and care for the
with the sound of all
dimensions.
I am going to leave a heart in
the earth
so it may grow a flower
a heart that throbs with
longing
and adores everything green
that will be the strength and
nourishment for birds that will
be the sap of plants and
mountains.
